Magic Circle / Adjustable Ring Tutorial:

Magic Circle - Step One

Magic Circle - Step Two

1. Make a loop with the stray end under the working end of the yarn.

2. With the hook, pull the working end from behind the stray end under and back up to the top. Ch 1 or otherwise start as you would with any other type of ring.

Magic Circle - Step Three

Magic Circle - Step Four

3. Continue around, working as usual, with the sts worked directly over both cords.

4. Once the desired number of stitches have been worked, hold work with one hand and pull the stray end taut with the other hand.

Magic Circle - Step Five

5. Continue to pull the stray end until the ring is the desired size. Weave in end to keep ring from growing as piece is worked.
